

Natural Properties & Playa Negra Realty

We are a full service real estate agency. We sell homes, condos, large plots of land (farms), condominiums, development projects, hotels and resorts, and businesses. We also have built a network for real estate loans.

Our associates are in Tamarindo and Playa Negra which are situated on the beautiful Northwest Pacific coast of

Costa Rica. Natural Properties and her partner Playa Negra Realty are here to help you realize your dreams. We are dedicated to offering our customers the highest quality service.

We are also dedicated to giving back. It is for this reason we have partnered up with the howler monkey project Salvemonos. This is quite a worthwhile project. Patricia and Simona have been working very hard for years to help save the Howler monkeys. Through the sales of t-shirts, stickers, mugs, and generous local donations they have generated enough money to hang more than 100 special bridges over the streets and electrical wires in the area. Each bridge can possible save a monkey a week from being electrocuted on the power lines. We donate 7% of all net revenue to the project.

We will help you throughout the buying process here in

Costa Rica, ensuring personalized service. Thank you for visiting our site! Please do not hesitate to contact us via e-mail or phone with any questions you may have.

Central America South Surf Report and Forecast

We are a full service real estate agency. We sell homes, condos, large plots of land (farms), condominiums, development projects, hotels and resorts, and businesses.

Our main associates are in Tamarindo and Playa Negra which are situated on the beautiful Northwest Pacific coast of

Costa Rica. We also have people working in San Jose and the central coast. Natural Properties and her partner Playa Negra Realty are here to help you realize your dreams. We are dedicated to offering our customers the highest quality service.

We are also dedicated to giving back. It is for this reason we have partnered up with the howler monkey project Salvemonos. This is quite a worthwhile project. Through the sales of t-shirts, stickers, mugs, and generous local donations they have generated enough money to hang more than 100 special bridges over the streets and electrical wires in the area, identified biological corridors, plant trees to increase corridor size, and identify individual families and their range. Each bridge can possible save a monkey a week from being electrocuted on the power lines. We donate 7% of all net revenue to the project.

We will help you throughout the buying process here in

Costa Rica, ensuring personalized service. Thank you for visiting our site! Please do not hesitate to contact us via e-mail or phone with any questions you may have.
